

{ INTERIOR DESIGN }

portfolio entrance project }

Imagine you are an Interior Designer who has been hired to design a residential space.

Interior Design Exercise

Submit PART ONE and PART TWO of the project.

PART ONE:

On the first sheet of paper, redraw a floor plan for a living room/den. Draw the plan at 1/4-inch scale, that is 1/4-inch = 1 foot. After you have finished drawing the floor plan, add furniture to the plan.

You may arrange the furniture any way you like, but you **MUST** use:

- One sofa
- Two chairs
- One coffee table
- One or two bookcases
- One or two end tables
- One television set

SEE SAMPLE FLOOR PLAN AND FURNITURE ON NEXT PAGE.

PART TWO:

Choose A or B below.

- A. On the second sheet of paper, sketch an area of the room (as you have drawn it in the floor plan with furniture) in perspective.
- B. On the second sheet of paper, prepare a color scheme of small samples of fabric and paint. Arrange and paste up the samples on the paper and include a title and your full name.

Important Notes:

- This exercise can be done using a 12-inch ruler, a pencil, eraser, and two pieces of plain white (unruled) paper, 8.5 x 11 inches.
- Your work will be reviewed for creativity and quality of presentation. Remember, a neat presentation is always advantageous.

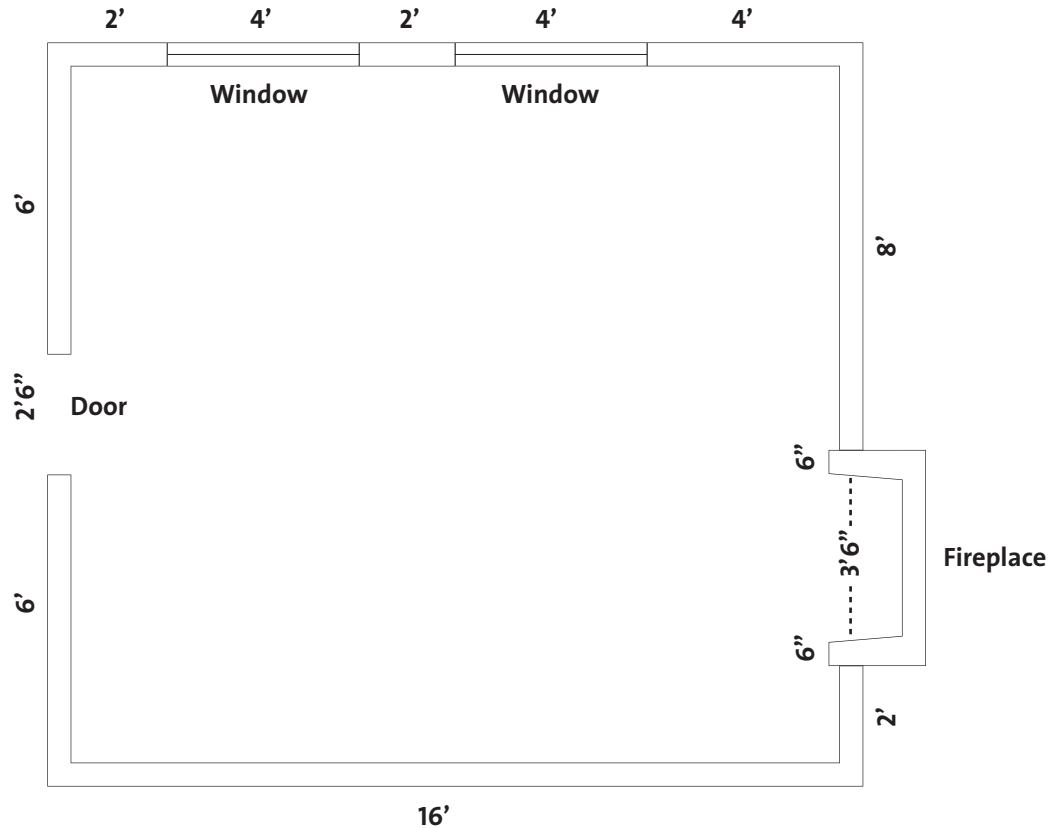

Sample Floor Plan

Redraw this floor plan to scale on your own sheet of paper.
Your sketch should be 1/4 inch scale: 1/4 inch = 1 foot.

Note: All walls are 6" thick.
